A Digital Library of Greek Literature

Project Director: Maria Pantelia

TLG Subscriptions

The TLG® Digital Library is available to individuals and institutions by subscription. At the end of the licensing period, users may elect to cancel their subscription or renew it.

A smaller corpus (Abridged TLG®) is open to the public free of charge. It contains authors that have traditionally been used in college level instruction of Greek as well as editions that have been replaced in the full corpus by newer or different ones.

No subscription is needed but visitors will be asked to create a guest account and login with a user name and password.

Individuals

Individuals may obtain a one-year subscription at <https://stephanus.tlg.uci.edu/indivaccounts>. Access is provided through password protected login.

Please note the payment must be made with your personal credit card. We do not accept third party payments.

UN Comtrade Database

The world's most comprehensive global trade data platform

The United Nations Comtrade database aggregates detailed global annual and monthly trade statistics by product and trading partner for use by governments, academia, research institutes, and enterprises. Data compiled by the United Nations Statistics Division covers approximately 200 countries and represents more than 99% of the world's merchandise trade. Information can be extracted in a variety of formats, including API developer tools for integration into enterprise applications and workflows. Subscribers receive access to additional functionality to improve efficiency and specificity.
